MACHINE GUNS FOR EGYPT.

A test of the Rexer automatic machine gun-A test of the Rexus estomatic machine guaordered for the Egyptian Government took
place on Tuesday week at the Runymede range.
The Egyptian Government is taking about 0 of
these guns, and in the trials the catridges
tised were loaded with the Nitrokol explosive
which is 8 pyrocollodium powder similar
to that adopted in Ressis and now used in
England. With the general details of the gun
er-rice men are tolerably familiar, and it is
a finishen how to say that the power for working the mechanism is obtained from the recoil,
which, when the gun is fired, drives the barrie,
t gener with the breach and the other moving
part's, some Sin. backwards, this compressing a
recoil pring belond the treach. After the force
of the recoil is expected this- spring capands
and drives the barrie forward into the firing recoil spring behind the breech. After the force of the recoil is expueded this spring expands and drives the barrel forward into the firing position. The recoil and return of the breech operate levers, which open the breech, eject the empty case, and inspire to see we carridge in he chamber. No water jakket is require to this grow, which is collect by ari, and which weight only 174th. The magazine bolds 26 cartridges, and case he discharged, by cognitive the country of the country

CHRISTMAS IN EGYPT.

THE CHURCH SERVICES.

ALL SAINTS' CHURCH, CAIRO.

The Christmas services at All Saints' Church, Cairo, were numerously attended. The Holy Communion was celebrated four times, at 6.30 am, at 7.3 am, at 8.30 am, and after morning service. The number of communicants at the four celebrations was 290. The services were conducted by the Very Rev. Dean Butcher, D. D., Rev. Thempsoo Borns, M. A., Rev. Rennie MacIones, M. A., Bev. A. C. Dicker, M. A., and Rev. Sheldop Woodle. The Dean took his text from fasish it.c., "The Prince of Peace" He suplained the difference between the peace of compromise, and the Diving Peace of Pardon and Unity. obroth, which is in urgent need of repair and renovation.

The musical part of the service was directed by Mr. Serié Peacock and a highly efficient choir. The paslms and hymns were admirably sang. The anthem was by Barnby, "Christians awake." The decorations differed little from those which have been found effective in former years. The lines of the architecture were marked out with pelans and the altar was bright with poincettias.

STRUGGLE FOR THE B - HR EL GHAZ 1. To arrive at a right or deraiseding of the processor at issue, it is necessary to ext one's theoghts back for about a doesn years, to the time when Grest British. Frances and the Congo State were all advancing claims to the Baht, el Ghaz-la King Leopold and already taken 4tppy to establish vested interests in the country, while France was gradeally extending her is fluence was gradeally extending her is fluence was gradeally extending her is fluence eastwards across the continent for her Congo Colony. The British Government was rather swewardly situated. From Expt he road to the Upper Nile was barred by the Khalifa, while access by the Ext Coast roate was little more feasible, no Uganda railwigh having then been constructed. Such was the position of sfairs when the Earl of Kimberley, as British Minister for Foreign Affaira, contowid a subtle solution of the Proper Nile Valley yas within the British sphere of indicences; then King Leopold might be granted a lease of extrasive territories, which in the occupant to the Hopping of the Congo State recognise the Earl of Simberley, and the Simberley, and the Nile Foreign and M. van Earvale's, Secretary of State of the Indicence of promise well for the explantion of these plana. On May 12, 1849, Sir Francia Plunkett, the British Minister at Breach, and M. van Earvale's, Secretary of State of the Indicence of the Markett Nile was the boundary of the Congo State for the northwest of the Albert Nyama, At the same lings the Congo Nile watersheld was leased to the Minister and Fresch, and M. van Earvale's, Secretary of State of the Indicence was instituted—on the February of the Congo State for the northwest of the Albert Nyama, At the same lings to the Congo State for the northwest of the Albert Nyama, At the same lings to the Processing of the Congo State for the northwest of the Albert Nyama, At the same lings of the Congo State for the order of the Congo State for the northwest of the State of the Congo State for the northwest of the S

AN ABORTIVE AGREEMENT. AN ABORTIVE AGRESMENT.
No British Gavernment, it meel scarcely be "said, would tw-day venture to conclude an agreement of the instrument with the Congo State bate in 1894; it was still possible for the "said. Kimberley to write that the Government were rait field that "this portion of the British physic will be administered in a spirit in full seed and the said of the Abort of Bellin and Blue sels." Naturely the agreement contained no reference to Lord Kimberley's design to let the forces of the Chap of State into the Bate of Ushard in order that are a single the said of the Chap of State into the Bate of Ushard in order that are a short on French expansion. But it see a second or the Chap of State into the Bate of Ushard in order that are a short on French expansion. priest in the lease." There was no misconcep-tion, indeed on the part of Freechmen as 10 the *ffe to 6 the agreement. It is unappleasery to enter into details. The scheme proved to be uterly abortive. King Leopold had ocholede one-agreement with the British Government; he made no great bones about concluding with the French Government another agreement, which modered the first non-effective. Three-mon it had not just be speed when god Anguet IP 994. King Leopold's douly assertified re-presentations from the modern of the schole, it explanates for the recognition by Pance's or cartain frontier claims alsewhere, all rights of comparison in the Niel-Villey on side the sentiers had of the particular section of the scholes and the particular section of the contribution of the particular section of the lease was to lapse on King Leopold's doth. It lease was to lapse on King Leopold's dath. It is this comparison's results of the contribution of the law was to lapse on the particular section of the law had been the contribution of the contribution of the law was to lapse on the contribution of the four Lake Albert to degree laws. REITIBLE PREDOM PROM/ORLIGATION.

an awkward polition had be different to the control of the expedition under the Vicomta du Boarg de Beas which crossed Africa from the hand; if he decided that he had to the hand; if he decided that he had to see the freech Government and conclude the strength of the Freech Government and conclude the british of Government ment be held to be at library of the Nile, he found a sparrison of agreement of Angust, 194, then the British Government ment be held to be at library of the Nile, he found a sparrison of seven the property of the Nile, he found a parrison of the freech and the british of the state of the freech and the state of the freech and the british of the state of the freech and the held of the state o

Therefore, until the matter has been decided Government stement with the matter has been decided Government stement will not call at any of the Belgian posts with passengers, mails, or goods. The goestion at issue is ofconsiderable importance and it will therefore be both of interest and of value briefly to recall on what at lin the Ulper Nile Valley, and what are at lin the Ulper Nile Valley, and what are the claims put forward by him to which the British Government, representing the interest of Earyst and the Sudan, finds itself unblus to assent.

To arrive at a right understanding of the assent.

To arrive at a right understanding of the pre-time when Greek British. Government of the product of the product

demand for his withdrawal from the Land enclave, has overstepped the limits of that territory, claiming the right to occupy not only the enclave but the whole of the leased argies, and acting in defiance of the British Government in pursuit of that claim.

MODERN DEFENCE WORKS.

In this connection it is impossible to over ook cortain reports which may very well have influenced the Sodaness authorities in deeding on the step they have now taken. There is a sefficiency of evidence that great settivity has been displayed in fortifying the land frontiers of the Corgo Strate, whether on the south, on the east, or on the north. In the autumn of last year it was repastedly stated, in spite of official denials, that a number of new forts—twentwers mentioned as the actual number—were new corne of erection along the frontiers; these, was reported, were being constructed in Accordance with the lastst scientific principles, and were being mounted with modern artillery. Some surprise was excited by this information, seeing that in 1835 the Corgo State had declared its perpetual featurity and had claimed the advantages grantened by the Berlin Act, at the same time assuming the drives which neutrality carries with it. By Chapter III, of the Berlin Act, to which the declaration of neutrality referred, the signatory Powers bound themselves to respect the neutrality of the conventional basis of the neutrality of the conventional basis of the neutrality of the conventional basis of the CASE FOR JUDICIOUS BUT FIRM

Lieutenant Symes has been five and a half years in the Hampshires, and was latterly with the 1st Battalion at Portsmouth. He earned the D.S.O. in Somaliland.

Lieutenant Wilson received his first com-nission in January, 1899, and has seen some ervice in West Africs.

It will not be the fault of Lord Roberts in his retterated admonitions fail to arouse the population at large to a higher some of patricitic obligation than has existed latterly. Even at the risk of being twitted with repeated the risk of being twitted with repeating himself, the ex-Commander-in-Chief took up the same ground in his discourse at Newseatle on Tyne last week. With much of what fall from him in condection, with Arasy re-organisation on a broad and comprehensive, hand, we see in entire agenerate. We will hold that all schoolboys between cortain ages should receive elementary military training, to fit them for taking personal part in the vettern Field Marshal's cull upon the nation of contivers a higher spirit in connection with that chligation also coincides with what has frequently appeared in your colomes. It is undeniable that "the flag" dress not competitive to make the supplementation of popular himself that "the flag" dress not competitive in accopied to it by other nations. While, too, our great Contines enthesiastically celebrate Empire Day in one form or acorbox; the Motherland continess to regard too jes at the case, on a soesme, and he may be sure that his present allocotion, will carrowly be searched for fresh engineers, and a great mational emergency, whether insular or Imperial, the State would have the right to apply compolarory enliatment; that is, of sourse, trainin. But that is a wholly different matter to conscription in ordinary times as a basis of military despect.
